Front-End Developer

Back-End Developer

PROJECTS

- **ConnectBy**: ConnectBy is a feature-rich Facebook clone built with the <u>MERN</u> stack. Users can <u>register, log in, and create profiles, engaging in real-time post updates, photo sharing, and friend interactions</u>. Its responsive design ensures a seamless experience across devices, showcasing expertise in <u>full-stack development, user authentication, and frontend design.</u>
- **Calculator-API** : Created a basic calculator using <u>HTML</u>, <u>CSS</u>, and <u>JavaScript</u>. Implemented essential arithmetic operations and user-friendly interface to perform calculations effortlessly.
- **Taco Shop Website:** Crafted a detailed website for a taco shop using <u>HTML and CSS</u>. Presented an appealing menu, working hours, and contact details to enhance user accessibility and provide a delightful browsing experience

EXTRACURRICULAR ACTIVITIES

GDSC Web-Dev Head
Heading the web development domain of GDSC club of our college

Successfully volunteered HACKTOBERFEST 2023 event for college juniors
Helped juniors with **Git**, **Github** and overall Version control.

Volunteered Placement Drives in my college conducted by TnP cell

Passed Yog-Praveshika exam conducted by Yog-Vidya Dham, Nashik
